IDEA

MONITORING AND EVALUATION

IDEA - MONITORING AND EVALUATION

IDEA-ME is a web-based project monitoring and evaluation tool that provides a feature-rich platform incorporating portfolios, log frame design and indicators, team integration, activities/tasks tracking, custom and smart notifications, custom forms builder, analytical and reporting module, video-based meeting room, live streaming from project sites with an android based application and GIS-enabled technologies. IDEA-ME is a monitoring and evaluation software for managing development projects and useful for government agencies, institutions, project management consultants, funding agencies, NGOs and foundations.

WHY IDEA-ME ?

▶ Easy to install, implement and use.

▶ Highly flexible and customizable with configured plans available according to the needs of users.

▶ Cloud-based facilitating log in anywhere (office, home or field) and anytime.

▶ Allows seamless collaboration at all levels of project management team and project stakeholders.

▶ Designed for quality controls.

▶ Real time data driven project management and monitoring for resolving the executional challenges and seamless implementation of organization planning and controls.

▶ Designed to identify, manage and control risks.

▶ Data security through encryption, backups, SSL encryption, the best international practices applied.

▶ Affordable plans for all.

FEATURES

Portfolios
Organize view of project portfolios with smart filters

1

iDEA
MONITORING AND EVALUATION

2

Task Management
Task creation and assignment with user-friendly interface

Logframe Design & Indicators
Logical framework approach with easy integration of indicators to monitor the project and its impacts

3

4

Custom Roles & Organize Team
Define different roles and customized permissions for users and connect them as team

Smart Notifications & Activity Logs
Manage notifications and keep track of user activities

5

6

Workflow
Facilitation, validation and approval processes

Custom Form Builder
Fast, easy and powerful tool to build customized forms for different portfolios and surveys

7

8

Document Management System
Robust and powerful file management system

Live Streaming & Multimedia
